

Subject: April 3, 2020 – NDDA PPE Donation Drive

In these unprecedented times, many dental offices may be wondering about donating personal protective equipment (PPE) to various other health care providers or first responders. Each office must decide what their PPE needs are going forward; some may feel they have extra to donate, others will not. We all recognize the challenge that the current crisis potentially presents to our health care capacity and if you do have surplus PPE, the NDDA is offering an option for our profession to donate in unison, with that donation directed to the greatest need. We anticipate supplies will be collected over the next 2-3 weeks.

The State is collecting donated PPE at 8 Department of Transportation District offices. The NDDA has identified 8 dental offices in those districts to be drop-off sites for donated dental PPE; those offices will collect those supplies and keep track of donation totals before dropping them off at the DOT sites. Supplies that are accepted are listed at <https://ndresponse.gov/covid-19-resources/get-involved-how-you-can-help>. Below are the district dental offices at which you can donate supplies. Please call ahead so you know someone will be there to accept donations. If you have any questions, you can contact the dentist in your district or Dr Brent Holman.

Program Coordinator

Dr Brent Holman
