

Many local businesses have reached out to North Dakota dental professionals during this time of crisis regarding the shortage of necessary supplies in dental offices to protect dental teams and patients. Due to the difficulty obtaining masks, hand sanitizer, face shields, etc., the NDDA is working to supply members with a list of suppliers whom may be able to assist you in your search for supplies and equipment. **The NDDA does not endorse or recommend any one product over the other however, we do feel a list of suppliers is a service needed by NDDA members.**
