

## COVID-19 UPDATE: NEW Reopening Offices Resources

**Many dental offices have started opening and others are preparing to open. This update will be covering “New Reopening Offices Resources” along with our historical content which will be discussed at length below:**

- 1. NEW Reopening Offices Resources**
2. ADA Reopening Offices Resources
3. National and State Dental Organization Reopening Offices Resources
4. Reopening Offices Webinars
5. NDDA Member Emergency PPE Contact through State of North Dakota
6. ND Medicaid COVID-19 Temporary Teledentistry Policy
7. Federal/State, Business and Dental Supplier Resources Directories
8. North Dakota Department of Health COVID-19 Resources
9. ADA/NDDA/CDC/OHSA Guidance and Other Links

**At the NDDA, our number one priority is and always will be the health and safety of our dentists, their staff and most importantly their patients.** There are many organizations, authorities and consultants providing best practices, services, recommendations and guidance surrounding the delivery of dental care during this COVID-19 pandemic. While the NDDA encourages members to review as much content as possible from all of these sources; **the NDDA strongly recommends all member dentists review all American Dental Association COVID-19 Guidance especially the “Return to Work Toolkit.”** The NDDA does not endorse or specifically recommend any other best practices, services, recommendations and guidance however, we do feel a list of all of this content may be of value for NDDA members. The NDDA has not had the opportunity to review all of this information to its full extent and each member is requested to use their clinical judgement specific to their patients and practice. **It is our intention that all NDDA members will keep up to date, informed and follow the highest health, safety and infection control standards.**

## **NDDA Member Emergency PPE Contact through State of North Dakota**

**NDDA member dentists should call 701-328-0707, the NDDoH Operation Center, for assistance coordinating with regional LPH PPE fit testing sites.** The NDDoH Operation Center will reach out to the regional LPH fit tester to determine capacity. If they do not have the capacity, the DOC will work to have the request for assistance filled. NDDA member dentists are able, as essential health care providers, to order PPE supplies, to include N95 respirators, from the ND state medical cache for dental emergency services only. You will need to sign up to order supplies at <http://hanassets.nd.gov/>. When ordering, you will need to identify your office's anticipated need for a 2-week period and will also need to indicate the number of employees who are providing direct care for emergency services on the Customer Note section at the very end of the online order form. All information is required.

## **ND Medicaid COVID-19 Temporary Teledentistry Policy**

ND Medicaid issued a temporary teledentistry policy to provide flexibility for members and providers to receive and deliver services. **This policy covers services rendered on dates of service that fall between March 20, 2020 and the date the national emergency, as authorized in Title V of the Stafford Act, is declared over.**

[ND Medicaid Teledentistry – COVID-19 Temporary Policy](#)

[ADA Interim Guidance to Teledentistry](#)

The NDDA would like to thank all members working to provide remote care and access to North Dakota Medicaid patients at this time.

**NEW Section – Identifying Grey Market and Counterfeit PPE Products Resources:**

The COVID-19 pandemic and short supply of N95/KN95 masks, other PPE, and test kits combine to create increased potential for unscrupulous activity and counterfeit products. **You are urged to exercise extreme caution if offered an opportunity to purchase PPE, test kits and other supplies from non-traditional suppliers or supply chains.**
